

ENVIRONMENTAL POLICY STATEMENT

Twyford Bathrooms is committed to preserving and protecting the environment, through minimising the impacts of its activities upon the environment. This commitment embraces all aspects of our business.

The Directors and Senior Management of Twyford Bathrooms are committed to the success of environmental management initiatives and will allocate appropriate resources in order to achieve this.

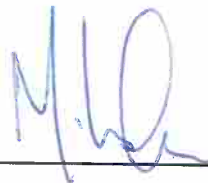

- It is our policy to monitor all Environmental Aspects of our operations at Lawton Road, Alsager according to the requirements of BS EN ISO 14001-2004
- We will strive to continually improve our environmental performance, by limiting the impact of our business activities and operations on the environment.

Twyford Bathrooms will achieve this by:

- Meeting and where appropriate, exceeding all legislative, regulatory and other requirements including those outlined in Geberit's 'Code of Conduct' – and will not knowingly violate any requirements imposed by environmental law.
- Promote a positive commitment in order to prevent pollution at source, where reasonably possible.
- Actively promote minimising, reusing, recycling and reclaiming waste materials where possible in order to reduce waste produced in all aspects of our activity. Increase what we recycle, and work closely with our waste collection provider so as to limit the amount of waste that goes to landfill.
- Reducing our Carbon Footprint by:
 - Reducing carbon emissions, by promoting responsible energy management practices to improve efficiency through all premises, plant and equipment, wherever it is cost effective to do so.
 - Ensuring that all employees are aware of this policy and of their obligations and responsibilities through environmental training and ongoing communication, to encourage their involvement, both at work and at home.

Environmental performance objectives and targets will be established annually following a review of processes and procedures, in consultation with relevant members of staff. These will be published within the organisation and will be subject to periodic management meetings and management reviews in line with the requirements of the environmental management system.

Mark Larden
Managing Director
